## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 97, 113 are rejected under 35 U.S.C. 102(b) as being anticipated by  
Chitwood et al.

Chitwood et al disclose a printed circuit board (12), a component (20, 22, 24), a conformal EMI shield (26, 34, 38), a coupling mechanism or first shielded connector (32), second connector is inherent, the circuit board including a plurality of ground pad (14), and a ground plane, traces and via, wherein the characteristic impedance of the trace is inherent.

Claims 91-96 are rejected under 35 U.S.C. 102(b) as being anticipated by  
Denzene et al.

Denzene et al disclose a printed circuit board (12), a component (18), a conformal EMI shield (16), a coupling mechanism or first shielded connector (40, 24),

Art Unit: 2831

second connector is inherent, the circuit board including a plurality of ground pad, and a ground plane, traces and via.

***Allowable Subject Matter***

Claims 98-112 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 53-90 are allowed.

***Response to Arguments***

Applicant's arguments filed 01-06-05 have been fully considered but they are not persuasive.

Applicant argues (1) that Chitwood neither discloses nor suggests providing at least one surface trace arranged such that at least one surface trace has a desired characteristic impedance.

With respect to (1), it has been addressed in previous paragraphs

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
